To: Marshall County Healthcare Providers

Marshall County Health Department would like to express appreciation for the relationship that our healthcare community already has in place. Please continue to follow the usual reporting procedures during business hours.

We would also like to inform you of an added option for contacting staff after-hours for epidemiological situations requiring immediate attention/reporting. By calling the daytime number (527-1496) then dialing 2990 as the mailbox number, you will be able to leave a voice message for the staff at any time. The staff will be able to check the message and call you back/act accordingly.

We hope that this new feature will be a useful addition to the services that the Marshall County Health Department provides!

Thank you,

Brandi Earp
Regional Epidemiologist
